- Training Manual
- Microblading Kit valued at \$550.00

Microblading is a new eyebrow, semi-permanent technique lasting from 1-3 years. This innovative technique is one you can easily add to your service menu. It simply involves using a hand method tool and multiple micro needles. It is considered to be semi-permanent, as compared to the traditional hair stroke technique. Extensive theory and hands on practice will have you feeling extremely confident and ready to create embroidery brows once you've completed the course.

WHAT IS MICROBLADING?

is a method ideal for anyone wanting to enhance the look of their eyebrows. The results are natural looking, hair-like strokes, regardless of the amount of hair present. The pigments used in this method have been formulated to match your original eyebrow colour, and if the eyebrows are still present they will blend perfectly into them. The results are natural and flawless, giving your client a fuller looking brow. Initially, the brows will appear darker but will fade significantly over a two week period. A touch up required as it is difficult to predict how well the skin will retain the pigment.
